Let judicial tribunals sit in judgment, and measure out the guilt by the rules that are wisely made for such a purpose. Party vindictiveness is ntterly unfit to be invoked in such a case; and all just men in Congress ought to resist any appeal to it. In this case it is unnatural in any national man to invoke party vengeance on the head of Brooks. The lawless act of his had at least the merit of reckless boldness. > New Books. THE OLD CORNER CUPBOARD. Truman Stafford . Cincinnati.

This is eminently a heart-history. It is of that place of the trashy, wish-washy sentimetalities of late years. It is a return to a healthful literature, considered morally and socially. It consists of a series of letters extending through a life-time, giving the history of that life and its intimates from the earliest aspirations of girlhood, through youth, womanhood and maturity, to old age. A spirit of piety, perhaps directed somewhat by New Church belief, pervades the entire book. In style, it is well worthy of a high place among the better productions of the age. We have read it with pleasure and profit, and we are glad the publishers have given it to the world. We trust it may have a large sale, for it is emphatically a good book. LIBERALITY OF PHYSICIANS.—It has always been said that physicians would disparage any remedy, however valuable, which they did not originate themselves. This has been dispreven by their liberal course towards Dr. J. C. AYER'S preparations. They have adopted them into general use in their practice, which shows a willingness to countenance articles that have intrinsic merits which deserve their attention. This does the learned profession great credit, and effectually contradicts the prevalent erroneous notion that their opposition to proprietary remedies is based cific, was opened on Friday last. > [From the Bardstown Gazette.] Bardstown and Louisville Railroad We desire to address a few words to the citizen merchants and mechanics of the city of Louisville, in reference to the advantages which will result to them individually and collectively from the construction of a branch railroad from Bardstown connect with the main stem of the Louisville

nd Nashville road.

It is almost a matter of supererogation at this late day to attempt to prove to any people the immense benefits that will and do result to comnmense benefits that will add to local; still we percial cities from railroad connections; still we will attempt in this article to prove that, by th ailure of this road, the citizens of Louisville, a well as the citizens of Bardstown and Nelso

well as the citizens of Bacustown and Reison county, will suffer a little.

The time has passed when the mere advantages which nature has lavished upon the locality of a commercial city can sustain it. The animus of this pregressive age has called art and science into requisition, and holds natural advantages as tributaries and insufficient to carry on the commerce
of this great country. Hence it is that Boston,
New York, Philadelphia, Baltimore, and Cincinnati are developing the rich interior country which
surrounds them by railroad connection, and by
this means adding daily to their commercial prosperity. Is there a single citizen of Louisville who
does not know that his city is far more favored
by nature than Cincinnati, and yet, with all her
advantages of location, that Cincinnati is far outstripping her in commercial wealth and prosperity? requisition, and holds natural advantages as tril stripping her in commercial wealth and prosperity Cincinnati is not content with making the riches portions of the State of Ohio tributary to her, but she is extending her iron arms into the very center of our own beloved Kentucky, to make the wealth of her productions swell their commercial opu-

If Nelson county was as near to Cincinnati as If Nelson county was as near to Cincinnati as it is to Louisville, the sun which illumined the first day of the year 1858 would not set before the wealth of her productions would be transported by railroad to contribute its quota to her wealth. And we do hope that after the amount of debt we, the to build up this connection with the city of Louis-ville, they will not refuse us the small moiety of subscription which we ask of them. We are no mere charity beggars at the hands of the citizens of Louisville, for we have already voluntarily voted a tax of a hundred thousand dollars upo ourselves, and have privately subscribed nearly hundred thousand more to construct this bra road, which is to pour the commercial wealth of the rich county of Nelson into her lap. Ner will the advantages to accrue to Louisville stop within the limits of the county of Nelson. This road will draw large portions of the productions of Anderson, Washington, and Marion, to the doors of the Louisville merchants, and with their productions, the citizens of these counties to trade and trafficulations. with her merchants and mechanics. Bardstown is famed for her institutions of learning, and has a this time in active operation male and female in stitutions which are unsurpassed by any other the like kind in the Union; and the citizens Louisville, by aiding us to construct this road, will have those unsurpassed institutions for the educa-tion of their children within an hour's travel of

CORROBORATION.—When the practice of inhalation for the treatment of consumption was first established here, by Dr. Robert Hunter, of this city, and its success and availability strongly advocated in the leading journals, the assertion was made by Dr. Hunter, that "If every case of consumption in this city were placed under judicious treatment by inhalation, within two years the mortality from that disease would be diminished one-half." Opponents of the new principle of local application of vapor for the cure of disease of the lungs, appealed accordingly to the bills of mortality, predicting the most discouraging consequences from the wide prevalence which the new system had auddenly gained. After a careful examination of facts in connection with the system, we ventured to give curvoice with others, in new system had suddenly gained. After a careful examination of facts in connection with the system, we ventured to give our voice with others, in favor of its fair trial. We are accordingly rejoiced to see the repeated assurances of every good result to the afflicted, from what appears to be the broadest basis of judging in the premises of the results. Dr. Hunter, in answering the appeal to the bills of mortality, regularly published in his journal, the Medical Specialist, points out a further decrease in the deaths from consumption in New York, reaching now to the extent of thirtyone per cent. decrease for a comparison of the three months just past with the corresponding quarters of the previous year. For the three months ending March, 1854, the number of deaths from this disease are given a \$43; for March, 1855, the number was 765; and for March, 1856, the number is 580—a decrease of two hundred and sixty-three, or nearly one-third.

Wood's HAIR DYE .- This admirable article Woon's Hair Dyr.—This admirable article is rapidly improving the hair. No article of a similar kind, now before the public, enjoys a better reputation as a restorative and invigorating hair tonic. Its peculiar chemical qualities have a beneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was formerly of a coarse and dry nature. It has, also, we understand, a tendency to preserve the youthful color and appearance of the hair, and destroying or counteracting the effects of age. With such recommendations in its favor, we hardly perceive how any lady or gentleman should be without so valuable an adjunct to their toilet. je2 dl&w1]

CHILDS & CO.: THIS IS TO

Affection for nearly five years, which was caused by
straining my back in August. 1842.

In the month of January, 1843, I employed a physician of the regular practice, and after the usual mode
of bleeding, and dosing with calomel he left me not
knowing the nature of the disease. But in January,
1844, I took a violencoid, which caused the mercury to
settle in my back and legs, causing the muscles to contract and cramp me so hard that it produced two curves
in the spinal column; thereby rendering my lower extremities entirely useless, not being able to walk or
stand, or move my fect or toes, and all but myself concurred in the opinion that I never would be any better.
But in January, 1845, I commenced taking the Oriental
or Sovereign Balm, and to the astonishment of all,
before I had taken six boxes. I begun to move my toes,
and in March, 1846, I began to walk; and now, at the
date of this certificate, I am able to walk three or four
miles in a day. It is by the use of your Fills alone that
I enjoy my present health and activity, and I can
safely recommend them to the afflicted. If any doubt
these statements, they can have positive proof by calling at my residence in Ellisburg, Jefferson County,

Three boxes have cured the worst cases of Scrofula

Two boxes have cured Erysipelas. One box always cures the Jaundice. Three boxes are sure to cleanse the system soils—often less than one does it.

Two boxes have completely cured the worst of Ulcer Small doses seldom fail to cure the Piles.

Strong doses, often repeated, expel every Worm fro the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic, they have no equal. One box cures Derangement of the Liver. Half a box cures a Cold. They Purify the Blood, and thus strike at the foun-

But the immense patronage and success that has attended the sale of the article manufactured by me, and the opinion of competent judges as to its qualities as a beverage and its medicinal virtues, precludes the possibility of the ideathat I am included among those he designs to impugn. No doubt he feels aggrieved at the depreciation of the sale of his Schnapps, which is manifest to all, since mine has been brought into competition with his. Not only have I succeeded in competing with him quality, but the constant and increasing demand for my article will soon satisfy him that his caution to the citizens of the "Southern and Western States" will avail him nothing as far as I am concerned. The character of my Schiedam Schnapps is too well estab-lished in those States to be injured by any such invidious publication. The motive of his advertisement is obvious to every one, and feeling well satisfied that all such missiles thrown at me by him will fall harmless at my feet, I willhere, for the satisfaction of the public

Does it not appear, now, poor and deceitful for U.W. to attempt to make a wrong and untrue impression on the public by asserting that the name "Schiedam Schnapps" belongs exclusively to his article, and tha all others are counterfeits and impositions? U.W. has no monopoly, and no more right for the cole importation of Schiedam Schnapps than anybody

Caution to Western Merchants ! WOLFE'S

Schiedam Aromatic Schnapps This celebrated medicinal beverage is manufactured at the factory of the undersigned, at Schiedam, Hol and. He is the sole importer, as well as the exclusive manufacturer of the article; and no preparation bear-ing the name of "Schnapps," that is not procured eitherfrom his establishment in New York, or from his gents in other cities, is genuine and reliable. It is madefrom barley of the finest quality, selected with great care from the products of the most celebra-

ted grain-growing districts; is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle. As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers, new settlers, and all unaccli-mated persons in the west, the south, and southwest

are peculiarly liable—the Schiedam Aromatic Schnapps will be found absolutely infallible; while, in cases of ropsy.gravel, obstruction of the kidney he bladder, dyspepsia, and general debility, it is re mmended most emphatically by the most distinuished members of the medical profession It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature on the label
